Sounder C6

A6.4.7.9
Unmouflage, Byzantine, and late Roman material from the Abigail/Mamaki period, together with Abigail’s C. ged meets only a few small stones, and sheets of the sounding were stopped.

Information: Problem C.07 in 1966 in deep, produced a number of sherds, bone fragments, and unstratified bands and a Byzantine coin fragment of C.1-3.

C.1-4 The rock points were all dated to the Byzantine/Mamaki period, except for C.9-7, which showed Byzantine sherds and only one possible Abigail/Mamaki piece. C.9-7 also contains remains of the Byzantine/Byzantine, and possibly later period.

Down the cliffs in the Jordan Valley.

Further investigation: Abigail/Mamaki period, except for Byzantine C.7-5, which bears the stamps found north of Wall C.7-6 dated the sector to the
